

Our Sovereign Right as a Believer

First Amendment

First Amendment Annotated

Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

Law of the Land / Common Law / 10 Commandments

It is impossible for a law which violates the Constitution to be valid.

“All laws which are repugnant to the Constitution are null and void” (Marbury vs. Madison, 1803)

As sovereign Americans we are a republic which believes and is guided by the rule of law under the guidance and protection of the Constitution of these United States of America. We can not be denied its protection at any point even during a national crisis such as disaster, pandemic, or war.

The Constitution is the Law of the Land. We can not be intimidated or coerced to violate such laws by those laws which are contrary to the Constitution of these United States of America. Law of the Land can better be identified as common law which is based on the ten commandments given Moses by our Creator God.

Because we have given power by implied consent to much of corporate America, we now find ourselves amid a serious takeover which has been planned for many years now, at least 150!

Admiralty laws are corporate laws and are based on commerce or the law of the seas which is not land.

According to Merriam Webster Dictionary, Maritime Law is: law that relates to commerce and navigation on the high seas and other navigable waters that is administered by the admiralty courts.

Gold Fringe around the flag of the United States of America in a court room means that you have left your Constitutional rights outside the courtroom doors and now have given implied consent to admiralty laws which can be what ever corporate rulings decide. These are enforceable until you rise and take back your consent to be heard in that room.

Wikipedia.org defines Admiralty courts as such: The gold fringe around the United States flag, as displayed in all courts, designates the as Admiralty courts, which cannot hear other cases, or signal that the court is operating under maritime law.

Of course, no one can give any evidence to this other than it being very strange. Why are many judges in those court rooms not elected who have the fringe around their U.S. of A. flag? It is again, the U.S. of A. Constitution which is the law of the land therefor we as sovereign Americans are not required to, nor give any credence to any law which violates our rights afforded us by our Constitution.

Therefor it is imperative that we as Americans command those who have been elected, to uphold our rights, and not to violate their oath of office forcing Americans to submit to mandates that are not legal.

When you sign any document given by any establishment whether it be a business, school, or government, stating that you have read their message of intent, you have given implied consent that they have authority even if you deny or refuse to comply with their nonsense. You are to simply refuse and refrain from any interaction other than informing them that they, under constitutional law, mandated to protect your first amendment right. They will be held responsible for any form of discrimination or treason forced upon sovereign Americans by their practice of insurrection and will face extreme penalties to include incarceration and hefty fines.

We do not need a lawyer who is apart of their system to represent us since we cannot be tried by their admiralty rulings!

Be sure to get a copy of the U.S. of A. Constitution and read it! Let us not perish for our lack of understanding.

May the good LORD our Creator bless and protect these United States of America
